Q1 Text Solution:

Answer: B

Explanation:

"Tear up the rulebook" means to treat the rules as if they don't apply or to completely override them.

Why not the rest:

Option A is to make minor changes which does not suit the context.

Option C is a delay which again is not compatible as the market shift requires complete eradication of the rulebook.

Option D refers to strict compliance. None match "ignore/override."

Video Solution:

Q2 Text Solution:

Answer: C. backed down from

Explanation:

Backed down from means to withdraw or yield on a stance. This shows he's retreating from earlier denials.

Why the others don't:

Option A backed means to support, not retract statements.

Option B back off means to stop being aggressive; doesn't mean retract a claim.

Option D back up means to support or confirm (the opposite of reversing).

Video Solution:

Q3 Text Solution:

Answer: D

Explanation:

"Cash in on" something is to take advantage for gain.

Why not others:

Option A is a neutral statement, which means to work something simultaneously but has no influence.

Option B is also a neutral statement which also talks about a positive situation despite the negativity. This situation is not applicable here.

Option C talks about fixing a damage whereas the gist of the statement is more about profiting from a given situation.

Video Solution:

Q4 Text Solution:

Answer: A. spin off

Explanation:

Android App | iOS App | PW Website

Spin off means to separate a business unit into its own company, exactly what the sentence describes.

Why the others don't:

Option B spin up means quickly start something often used for tech or servers, not restructure a company.

Option C spin out means to prolong or cause to lose control; doesn't mean carve out a unit.

Option D spin around means to rotate or turn physically; irrelevant here.

Video Solution:

Q5 Text Solution:

Answer: A

Explanation:

"Spell the culmination of" means to effectively finish something off.

Why not others:

Option B talks about boosting the trade which doesn't go well with the harsh monsoon.

Option C talks about making a temporary change, which again is not applicable as the monsoon is the cause which leads to a definite result.

Option D is about a minor friction, not the final result.

Video Solution:

Q6 Text Solution:

Answer: C. roll out

Explanation:

Roll out is to launch or release something new which here suits best for an extra tranche of swaps.

Why the others don't:

Option A roll over means extend or renew a position or loan. Since the sentence talks about an extra tranche of swaps, it needs a phrasal verb that specifies launching something new, not continuing with an old regime or scheme.

Option B roll back is to reverse or reduce (e.g., prices, policies). Not applicable here

Option D roll up is to arrive or accumulate; this does not suit "issue swaps."

Video Solution:

Q7 Text Solution:

Answer: A

Explanation:

"Play fast and loose with" means to treat rules carelessly. That's the charge here.

Why not others:

Option B means to obey which contradicts the basic theme of the sentence

Option C is about a firm commitment, which again is a positive statement that defies the main statement.

Option D means to accept uncritically which does not comply with the bending rules.

Video Solution:

Q8 Text Solution:

Answer: D. squeeze out

Explanation:

Squeeze out means extract or force out with pressure which fits "concessions out of."

Why the others don't:

Option A squeeze in means to fit into a tight schedule or space.

Option B squeeze by means to just manage to pass or survive.

Option C squeeze up means to move closer together.

Video Solution:

Q9 Text Solution:

Answer: B. round up

Explanation:

Round up means to gather people or things which sounds perfect for enclosing votes or support.

Why the others don't:

Option A round out means to complete or fill out which is not suitable for accumulating the support of people.

Option C round off means to finish neatly or adjust a figure which is not applicable in this case.

Option D round on means to suddenly attack or criticise.

Video Solution:

Q10 Text Solution:

Answer: C

Explanation:

"Kick the can down the road" means to postpone or avoid a decision. The word "yet" is significant here, which means that despite a sharp recommendation, the ministry still seeks review and feedback on the same.

Why not others:

Option A means to be in charge – this does not suit here as it is about reconsidering something rather to being in charge.

Option B means to cut off entirely; however, the suggestions are still under considerations.

Option D means to actively support which cannot be anticipated considering the

contradiction in the tone of the sentence.

Video Solution:**Q11 Text Solution:**

Answer: A. root out

Explanation:

Root out means to find and remove something hidden which is ideal for uncovering a shell entity.

Why the others don't:

Options B and D root around or root about is to search messily, without the sense of discovery or with an intention of checking something or removal of something.

Option C root up means to pull plants up by the roots; not about investigation.

Video Solution:**Q12 Text Solution:**

Answer: D

Explanation:

Shoot yourself in the foot means that your own actions undermine you. It fits the phrase

perfectly as it talks about a man caught by his own logic.

Why not others:

Option A means to be direct, which does not necessarily lead to a negative outcome.

Option B means to get lucky which is not applicable here.

Option C means to avoid embarrassment, which again is out of context here.

Video Solution:**Q13 Text Solution:**

Answer: B. cover up

Explanation:

Cover up means hide or conceal. This is exactly what a PR gloss would try to do.

Why the others don't:

Option A cover over means to literally put a layer on top; this option is best used for a context which is to physically or literally cover something. Option C cover for means to defend or make excuses for a person. Here, the context is to hide not to defend.

Option D cover off means to "address" an item, not hide it.

Video Solution:

**Q14 Text Solution:**

Answer: Option A

Explanation:

"Dig your own grave" means to set yourself up for trouble later.

Why not others:

To sleep on something means to think very carefully about it or to delay a decision

To play it by the ear means to improvise

To leave no stone unturned means to make the best effort possible or to search something thoroughly.

Video Solution:

**Q15 Text Solution:**

Answer: A. brought up

Explanation:

In systems or IT, brought up means to start or provision a service or instance—exactly what's needed.

Why the others don't:

Option B brought out means to release or publish something like a product.

Option C brought in means to introduce a rule or person or earn money.

Option D brought on means to cause something which is often negative to happen.

Video Solution:

**Q16 Text Solution:**

Answer: C

Explanation:

"Nail in the coffin" makes the full and final decisive blow.

Why not others:

To turn the tables means to reverse advantage

To break the ice means to start social ease

To change tack means to modify or alter approach.

Video Solution:

**Q17 Text Solution:**

Answer: C. handed over

Explanation:

Handed over means formally transfer control or responsibility. This phrasal verb fits outsourcing staffing or payroll.

Why the others don't:

Option A hand out means to distribute items (leaflets, grants).

Option B hand down means to announce or issue for example in case of a judgment or pass to the next generation.

Option D None of the above is not the right answer because C is the right answer.

Video Solution:

Q18 Text Solution:

Correct Answer - C) put their shoulder to the wheel

Put their shoulder to the wheel refers to working diligently and putting up with what's needed to get it over, exactly what the boss would say.

Incorrect Options:

A) Keep their fingers crossed refers to hoping for the best. It does not express that they need to work harder.

B) Let sleeping dogs lie suggests not stirring trouble as part of advice and is irrelevant for a motivational scene.

D) Make ends meet means to make enough money to get by, which has nothing to do with teamwork or effort.

Video Solution:

Q19 Text Solution:

Correct Answer: B. Change his behavior for the better

"Turn over a new leaf" means to make a positive change in one's life or behavior.

Incorrect Options:

This is the opposite meaning of the idiom

It mentions making a comeback which is not the exact meaning of the idiom

It implies an interval for a while rather than changing one's behavior

Video Solution:

Q20 Text Solution:

Correct Answer: B. Overcome a difficult situation with fortitude

Explanation for the Correct Answer:

Weather the storm is an idiom that means to endure and successfully overcome a difficult or challenging situation with strength and perseverance. In this context, the phrase is used to describe how the person faced numerous challenges but remained steadfast and determined, which aligns with **option B:**

Overcome a difficult situation with fortitude.

Explanation for Incorrect Options:

- **A. Allow external pressures to influence decisions:**
 - **Meaning:** Giving in to outside forces when making choices.
 - **Why Incorrect:** The idiom implies enduring adversity, not yielding to external pressures.
- **C. Navigate a crisis by avoiding confrontations:**

- **Meaning:** Dealing with a crisis in a way that avoids conflict or confrontation.
- **Why Incorrect:** The idiom focuses on resilience and overcoming difficulty, not on avoidance of confrontation.
- **D. Give in to the hardships and abandon the task:**
 - **Meaning:** Surrendering to difficulties and quitting the task.
 - **Why Incorrect:** The idiom describes overcoming hardship, not quitting or giving up.

Video Solution:**Q21 Text Solution:**

Right Answer: D. In a state of distress without help

"High and dry" is a state of being left in a difficult position without assistance.

Wrong Options:

- A. Conveys comfort, which is opposite to the meaning of the idiom
- B. Conveys support and assistance, not abandonment
- C. Suggests improvement, which has nothing to do with the idiom.

Video Solution:**Q22 Text Solution:**

Correct Answer: A) pick up the pieces

Pick up the pieces means to recover after a setback, which aligns with her decision to work harder after rejection.

1. B) Cry over spilled milk refers to lamenting something that cannot be changed, against her proactive attitude.
2. C) Put the cart before the horse refers to doing things in the wrong order, irrelevant to the context.
3. D) Jump the gun means to act prematurely, not fitting her reaction to the setback.

Video Solution:**Q23 Text Solution:**

Correct Answer: A) hit the jackpot

Hit the jackpot means to achieve great success or gain a big reward, which fits the athlete winning a championship.

Incorrect Options:

1. B) Threw caution to the wind means acting without regard to risks, not relevant to winning through training.

2. C) Struck a chord refers to evoking an emotional response, unrelated to achieving success.
3. D) Hit the roof refers to a great flare of anger, which is inapplicable in this triumphant context.

Video Solution:**Q24 Text Solution:**

Correct Answer: B. Introduced an unexpected and impressive solution

Essence of the Question:

The question tests understanding of idiomatic expressions in context. Recognizing the figurative meaning of **pulling a rabbit out of a hat** as introducing an impressive and unexpected result is key.

Explanation for the Correct Answer:

Pulled a rabbit out of a hat is an idiom that refers to producing an unexpected and often impressive solution or result, typically in a surprising way. In the context of the sentence, the CEO's announcement of sudden policy changes left everyone surprised, implying that the action was unexpected and noteworthy, aligning with **option B**.

Explanation for Incorrect Options:

- **A. Performed a common task effortlessly:**
 - **Meaning:** This suggests doing something ordinary with ease.

- **Why Incorrect:** The idiom **pulling a rabbit out of a hat** emphasizes surprise and impressiveness, not ease in performing a routine task.
- **C. Made an unrealistic and impractical decision:**
 - **Meaning:** This suggests taking an action that is not feasible or logical.
 - **Why Incorrect:** The idiom implies a positive surprise or solution, not impracticality. The context of the sentence also does not suggest the CEO's decision was unrealistic.
- **D. Engaged in a deceptive act:**
 - **Meaning:** This suggests dishonesty or trickery.
 - **Why Incorrect:** While pulling a rabbit out of a hat originates from magic tricks, its idiomatic meaning is unrelated to deception. It focuses on achieving an impressive or surprising result.

Trap of the Question:

Option D (Engaged in a deceptive act) could mislead test-takers because of the idiom's origin in magic tricks, which involve illusions. However, the idiom in a non-literal sense does not carry a connotation of deceit. **Option C (Made an unrealistic and impractical decision)** might seem plausible if the reader misinterprets the phrase to imply something unachievable.

Video Solution:**Q25 Text Solution:**

[Android App](#) | [iOS App](#) | [PW Website](#)

Correct Answer: C. Pursuing a misguided course of action

Essence of the Question:

The question tests understanding of the idiom **barking up the wrong tree**, which involves identifying its figurative meaning of pursuing a flawed or misdirected approach.

Explanation for the Correct Answer:

Barking up the wrong tree is an idiom that means pursuing a mistaken or misguided course of action, often based on incorrect assumptions or focusing on the wrong issue. In the given sentence, the speaker realizes her argument was based on incorrect assumptions, clearly indicating she was on the wrong path, which aligns with **option C**.

Explanation for Incorrect Options:

- **A. Relying on unreliable sources:**
 - **Meaning:** Using information from sources that are not trustworthy.
 - **Why Incorrect:** While unreliable sources could lead to a wrong argument, the idiom does not specifically refer to sourcing issues but rather to pursuing the wrong goal or focus.
- **B. Arguing without logic:**
 - **Meaning:** Making arguments that lack reasoning or rationality.
 - **Why Incorrect:** The idiom focuses on being mistaken in one's approach, not necessarily the absence of logic.
- **D. Defending a losing side:**
 - **Meaning:** Supporting a cause or side that is unlikely to succeed.
 - **Why Incorrect:** The idiom does not imply defending a particular side but rather

following a path or approach that is incorrect or misdirected.

Trap of the Question:

Option A (Relying on unreliable sources) might mislead test-takers, as incorrect assumptions can sometimes arise from bad sources. However, the idiom itself is broader and not restricted to sourcing issues. **Option D (Defending a losing side)** could confuse test-takers by implying failure, but the idiom pertains to being misdirected, not necessarily to losing.

Video Solution:

Q26 Text Solution:

Correct Answer: B. Engaging in reckless or risky behavior

Essence of the Question:

The question tests understanding of the idiom **sailing close to the wind**, emphasizing its figurative meaning of engaging in dangerous or high-risk actions.

Explanation for the Correct Answer:

Sailing close to the wind is an idiom that means taking a risky or dangerous course of action, often close to breaking rules or courting trouble. In the given sentence, the individual invests all his savings in a high-risk venture, clearly aligning with the idiom's meaning of engaging in risky behavior, making **option B** the correct answer.

Explanation for Incorrect Options:

- **A. Taking a bold and confident approach:**

- **Meaning:** Acting with courage and determination.
- **Why Incorrect:** While the action described may seem bold, the idiom emphasizes riskiness rather than confidence or boldness.
- **C. Navigating an unfamiliar situation:**
 - **Meaning:** Dealing with a scenario one has no prior experience with.
 - **Why Incorrect:** The idiom does not refer to unfamiliarity but rather to knowingly taking risks.
- **D. Making slow but steady progress:**
 - **Meaning:** Advancing gradually but reliably.
 - **Why Incorrect:** The idiom focuses on risk and danger, not on progress or steadiness.

Trap of the Question:

Option A (Taking a bold and confident approach) might confuse test-takers, as boldness can sometimes accompany risky behavior. However, the idiom does not imply confidence but focuses on recklessness. **Option C (Navigating an unfamiliar situation)** could mislead those interpreting "high-risk venture" as something unfamiliar. However, the emphasis of the idiom is on risk, not inexperience.

Video Solution:

Q27 Text Solution:

Correct Answer: B. Deny any involvement in the issue

Essence of the Question:

The question tests comprehension of the idiom "**wash his hands of the matter**", which involves disassociating oneself from a problem or scandal, often to avoid blame.

Explanation for the Correct Answer:

Wash his hands of the matter is an idiom that means to deny responsibility or involvement in something, especially after being associated with it in a negative way. In this case, the politician tries to distance himself from the financial scandal, claiming he was unaware, which aligns with **option B: Deny any involvement in the issue.**

Explanation for Incorrect Options:

- **A. Take full responsibility for the issue:**
 - **Meaning:** To accept blame or ownership for the situation.
 - **Why Incorrect:** The idiom implies distancing oneself from responsibility, not accepting it.
- **C. Shift the blame onto someone else:**
 - **Meaning:** To blame others for something one is responsible for.
 - **Why Incorrect:** While the politician may be denying involvement, the idiom doesn't necessarily involve shifting blame, but simply rejecting any association with the matter.
- **D. Expose the true culprits of the issue:**
 - **Meaning:** To reveal who is truly responsible for a wrongdoing.
 - **Why Incorrect:** The idiom is about distancing oneself from responsibility, not uncovering others' involvement.

Trap of the Question:

Option C (Shift the blame onto someone else) might be tempting because the politician is distancing himself, but the idiom doesn't explicitly involve blaming others, just denying involvement. **Option D (Expose the true culprits of the issue)** could mislead test-takers, as it might seem like the politician is revealing others' involvement, but the idiom is about absolving oneself from blame, not revealing others.

Video Solution:

Q28 Text Solution:

Correct Answer: C. Put in extra effort to assist others

Essence of the Question:

The question tests understanding of the idiom "**bend over backwards**", which refers to putting in extra effort to help or assist others, often beyond what is necessary.

Explanation for the Correct Answer:

Bend over backwards is an idiom that means to make a great effort or do something with extra care, often beyond what is required or expected. In the context of the sentence, the person is described as going out of her way to help her colleagues, which aligns perfectly with **option C: Put in extra effort to assist others**.

Explanation for Incorrect Options:

- **A. Avoid helping others:**
 - **Meaning:** Not assisting others when it is needed.
 - **Why Incorrect:** The idiom suggests a willingness to help, not avoid it. In fact, the

individual in the sentence is described as actively helping.

- **B. Exaggerate her efforts:**
 - **Meaning:** To make something appear more significant than it really is.
 - **Why Incorrect:** The idiom implies genuine effort, not exaggeration. It conveys the idea of doing more than necessary, not pretending to do so.
- **D. Help others only when convenient:**
 - **Meaning:** Assisting others only when it is easy or without trouble.
 - **Why Incorrect:** The idiom suggests going out of one's way to help, which contradicts the idea of helping only when convenient.

Trap of the Question:

Option A (Avoid helping others) might seem tempting for those who confuse the idiom with an unwillingness to assist, but it actually emphasizes effort and willingness. **Option B (Exaggerate her efforts)** could mislead test-takers into thinking the phrase implies overstating one's actions, but it focuses on the effort itself, not how it's portrayed.

Video Solution:

Q29 Text Solution:

Correct Answer: C. Warning of danger when there is none

Essence of the Question:

The question tests comprehension of the idiom "**crying wolf**", which refers to making a false

[Android App](#) | [iOS App](#) | [PW Website](#)

alarm or unwarranted warning of danger.

Explanation for the Correct Answer:

Crying wolf is an idiom that means to raise an alarm or warn of danger when there is no actual threat, often resulting in people ignoring future warnings. In this case, the skeptics argue that the proposal is a false alarm, similar to previous unsuccessful attempts, which aligns with **option C: Warning of danger when there is none.**

Explanation for Incorrect Options:

- **A. Exaggerating the problem to gain attention:**
 - **Meaning:** Making the problem appear bigger than it really is to get attention.
 - **Why Incorrect:** The idiom doesn't necessarily involve exaggeration for attention but focuses on giving false warnings.
- **B. Making an unlikely claim with no evidence:**
 - **Meaning:** Suggesting something improbable without supporting proof.
 - **Why Incorrect:** The idiom is about falsely warning of danger, not about making unsupported claims.
- **D. Presenting a solution without considering the risks:**
 - **Meaning:** Proposing a solution without addressing potential drawbacks or dangers.
 - **Why Incorrect:** The idiom is about the false warning of danger, not about offering solutions without considering risks.

Trap of the Question:

- **Option A (Exaggerating the problem to gain attention)** could confuse test-takers who might think the phrase involves exaggeration.

However, the idiom is about falsely warning about danger, not necessarily exaggerating the problem for attention.

- **Option D (Presenting a solution without considering the risks)** could mislead those who associate the idiom with offering unconsidered solutions, but the idiom actually involves false alarms, not unassessed plans.

Q30 Text Solution:

Correct Answer: A. Start a difficult task despite initial doubts

Essence of the Question:

The question tests understanding of the idiom "get the ball rolling", which means to begin something, particularly when it's difficult or involves overcoming initial reluctance.

Explanation for the Correct Answer:

Get the ball rolling is an idiom that means to begin something, often a process or task, that requires effort to overcome initial hesitation or difficulties. In this context, the person is described as overcoming her initial hesitation and fear of failure to get things moving, which aligns with **option A: Start a difficult task despite initial doubts.**

Explanation for Incorrect Options:

- **B. Encounter a series of problems that delay progress:**
 - **Meaning:** Facing multiple issues that hinder progress.

- **Why Incorrect:** The idiom focuses on starting a task, not on encountering problems during progress.
- **C. Begin something with no particular goal in mind:**
 - **Meaning:** Starting something aimlessly or without a clear direction.
 - **Why Incorrect:** The idiom involves initiating something, but the context suggests starting with purpose despite initial hesitation, not without a goal.
- **D. Initiate a process that is bound to fail:**
 - **Meaning:** Starting a process that will inevitably fail.
 - **Why Incorrect:** The idiom doesn't imply that the task will fail, only that it involves overcoming hesitation to get started.

Trap of the Question:

Option B (Encounter a series of problems that delay progress) might seem tempting, but the idiom is not about setbacks during the process, but rather about starting something despite initial challenges. **Option D (Initiate a process that is bound to fail)** could mislead test-takers into thinking the idiom implies failure, but it's simply about starting something after overcoming doubts.
